San Diego County, California**

March 21, 2006

Assessment Engineer's Report Camino Santa Fe Maintenance Assessment District

Preamble

Pursuant to the provision of the "Maintenance Assessment Districts Ordinance" (being Division 2, Article 5, Chapter VI beginning at Section 65.0201 of the San Diego Municipal Code), provisions of the "Landscape and Lighting Act of 1972" (being Part 2 of Division 15 of the California Streets and Highways Code), applicable provisions of "Proposition 218" (being Article XIID of the California Constitution), and provisions of the "Proposition 218 Omnibus Implementation Act" (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as "Assessment Law"), and in accordance with the Resolution of Intention, being Resolution No.

_____, adopted by the City Council of the City of San Diego, County of San Diego, State of California, in connection with the proceedings for the CAMINO SANTA FE MAINTENANCE ASSESSMENT DISTRICT (hereinafter referred to as "District"), the Transportation Engineering Division of the Engineering and Capital Projects Department, acting on behalf of the City Engineer as Assessment Engineer to the City of San Diego for these proceedings, submits herewith this report for the District as required by California Streets and Highways Code Section 22565.

Dated: March 21, 2006

By: Richard B. Leja
RCE 50279

Preliminary approval by the City Council of the City of San Diego, County of San Diego, California, on the _____ day of _____, 2006.

Elizabeth Maland, City Clerk
City of San Diego
State of California

Final approval by the City Council of the City of San Diego, County of San Diego, California, on the _____ day of _____, 2006.

Elizabeth Maland, City Clerk
City of San Diego
State of California

Report Summary

Project: Camino Santa Fe
Assessment District

Apportionment Method: Equivalent Benefit Unit (EBU)

	FY 2007¹	Maximum Authorized
Total Parcels Assessed:	277	--
Total Estimated Assessment:	\$240,003.91	\$360,005.86
Zone 1	\$148,213.85	\$222,320.77
Zone 2	\$91,790.06	\$137,685.09
Total Estimated EBUs:	1251.19	--
Zone 1	772.67	--
Zone 2	478.52	--
Unit Assessment per EBU:		
Zone 1²	\$191.82	\$287.73
Zone 2²	\$191.82	\$287.73

(1) FY 2007 is the City's Fiscal Year 2007, which begins July 1, 2006 and ends June 30, 2007. Total Parcels Assessed, Total Estimated Assessment, and Total Estimated EBUs may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.

(2) Although the Unit Assessment per EBU is the same for Zones 1 and 2, the difference in Location Factor for each Zone results in a tenfold difference in total assessment for equivalent parcels in Zone 1 versus Zone 2. See Page 9.

Annual Cost Indexing: The maximum authorized assessments will be indexed annually by a factor equal to the SDCPI-U +3%.

Bonds: No bonds will be issued in connection with the formation of this District.

Background

The District is generally located along Camino Santa Fe and future Carroll Canyon Road. The District improvements were installed by the H.G. Fenton Co. when the Camino Santa Fe extension was completed between Miramar Road and Mira Mesa Boulevard in 2004. To ensure long-term maintenance of these above City standard improvements, the developer funded the formation of a Maintenance Assessment District.

District Proceedings for Fiscal Year 2006

This District will be authorized and administered under the provisions of the “San Diego Maintenance Assessment District Ordinance” (being Division 2, Article 5, Chapter VI beginning at Section 65.0201 of the San Diego Municipal Code), provisions of the “Landscape and Lighting Act of 1972” (being Part 2 of Division 15 of the California Streets and Highways Code), applicable provisions of “Proposition 218” (being Article XIID of the California Constitution), and provisions of the “Proposition 218 Omnibus Implementation Act” (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as “Assessment Law”). This report has been prepared in compliance with Assessment Law.

Upon preliminary approval of this report by the City Council and the attachment of a resolution of intention, this report will be filed with the City Clerk, and a time and place for a public hearing will be set. The Clerk will give notice of the public hearing and proposed assessments by mailing an official notice to all persons owning real property proposed to be assessed as part of the District. In accordance with Assessment Law, a ballot will be mailed with the official notice. The ballot will make provisions for casting an affirmative or dissenting vote.

A public hearing will be scheduled where public testimony will be heard by the City Council. The public hearing will include presentation and consideration of this report, hearing of public testimony, and recordation of affirmative and dissenting votes. At the conclusion of the public hearing, a tabulation of affirmative and dissenting votes will be declared.

If a weighted simple majority of ballots cast by parcel owners (weighted according to each parcel’s proportionate assessment) are affirmative, the City Council may, at its discretion, proceed to confirm the new assessments and order the assessments to be levied as proposed in this Assessment Engineer’s Report. If a weighted majority of the ballots cast dissent the proposed assessments, the proposed assessments must be abandoned.

Bond Declaration

No bonds will be issued in connection with this District.

District Boundary

The District is generally located along Camino Santa Fe and Carroll Canyon Road, bounded by the Mira Mesa Maintenance Assessment District to the north, El Camino Cemetery to the west, Miramar Road to the south, and Carroll Canyon to the east. The District includes those parcels that receive access from the improved stretches of Camino Santa Fe and future Carroll Canyon Road.

The Boundary Map and Assessment Diagram for the District are on file in the Maintenance Assessment Districts section of the Park and Recreation Department of the City of San Diego and are included by reference in this report. The Boundary Map and Assessment Diagram for the District are available for public inspection during normal business hours. A reduced copy of the Boundary Map is included as Exhibit A in this report.

Project Description

The project to be funded by the proposed assessments is the maintenance of landscaped and hardscaped improvements and streetscape features including, but not limited to medians, sidewalks, curb and gutter, slopes adjacent to rights-of-way, and brow ditches. Assessment funds may also be used for minor capital improvements consistent with the current apportionment methodology.

Maintenance activities may include, but are not limited to irrigation, weed control, litter control, tree trimming, pruning, edging, pest control, fertilizing, other maintenance necessary for plant health and appearance; hardscape and streetscape cleaning; maintenance of irrigation system components; incidental traffic control; and security.

The maintenance areas are located generally adjacent to Camino Santa Fe. These areas include landscaped medians, hardscaped medians, landscaped rights-of-way, and slopes adjacent to rights-of-way. The engineering drawings and specifications for the areas to be maintained by the District are on file at the City's Development Services Center Records Counter and are incorporated herein by reference. Some specifications for the maintenance to be performed will be contained in a future City contract and will be on file with the City Clerk and the Park and Recreation Department.

Future development is planned that will extend Carroll Canyon Road through the District. Future improvements along Carroll Canyon Road will be included within this District.

Separation of General and Special Benefits

Consistent with City policy for the public at large, the City will provide the District with annual contributions from the Gas Tax Fund for median maintenance (29¢ per square foot of landscaped median and 11.81¢ per square foot of hardscaped median). These cost allocations, reviewed and adjusted annually by the City, are considered to be a “general benefit” administered by the District. All other maintenance, operations, and administration costs associated with the District, which exceed the City’s contribution to the public at large, are considered to be a “special benefit” funded by the District.

Cost Estimate

Estimated Costs

Estimated Fiscal Year 2007 and maximum authorized annual revenues, expenses, reserves, and assessments are included herein as Exhibit B. The maximum authorized budget is based on estimated ultimate development of the area and acceptance of all District improvements. Assessments authorized and collected as part of these proceedings may be used for future balloting and re-engineering efforts as may be necessary in the future.

Annual Cost Indexing

With the passage of Proposition 218, any proposed increase in District assessments must be approved by the affected property owners by a mail ballot and a public hearing process, similar to these proceedings. A simple weighted majority of ballots received (weighted according to each parcel’s proposed assessment) must be in the affirmative for the City Council to confirm and levy the increased assessments. For small assessment districts or districts with relatively low dollar assessments, the cost of an assessment engineer’s report, balloting, and the public hearing process can potentially exceed the total cost of the increase. These incidental costs of the proceedings can be added to the assessments, resulting in higher assessment amounts.

Indexing assessments annually to the San Diego Consumer Price Index for Urban Consumers (SDCPI-U) plus 3%, allows for minor increases in normal maintenance and operating costs without incurring the expense of ballot proceedings required by Proposition 218. Any significant change in the assessment initiated by an increase in service provided or other significant changes to the District would still require Proposition 218 proceedings and property owner approval.

The maximum authorized unit assessment rates established in these proceedings will be indexed (increased or decreased) annually by a factor equal to the SDCPI-U plus 3%. Fiscal Year 2008 will be the first year authorized for such indexing.

As an example of the indexing provisions, if a parcel’s maximum authorized assessment for a given fiscal year was \$100.00 and the published SDCPI-U increased 2% for that year, the parcel’s maximum authorized assessment would increase to \$102.00 (2.00 for the SDCPI-U plus 3.00). This increase would not require a vote of the property owners in the District. The parcel’s

actual annual assessment may be equal to or less than the maximum authorized assessment, depending on the actual estimated budget for the fiscal year.

Method of Apportionment

Estimated Benefit of Improvements

The improvements maintained by the District are primarily located along the major north-south arterial transportation corridor in the area. The Transportation Element and the Carroll Canyon Master Plan Element of the Mira Mesa Community Plan, and the general policy recommendations found in the City's General Plan establish several goals and guidelines for the planned development of the community. The improvements to be maintained by the District are consistent with these goals.

The major and arterial streets within the District are the backbone of the street network within the community. These streets serve as the primary access routes for inter-community and intra-community trips and thus serve all parcels within the District. All parcels within the District benefit from the enhanced Camino Santa Fe transit corridor through increased community aesthetics and greater public safety.

As indicated on Exhibit A, the District has been divided into two zones for benefit apportionment purposes. The two zones are generally described as follows:

Zone 1 – Includes that portion of the District immediately adjacent to the recently improved section of Camino Santa Fe as well as those parcels along Miratech Drive and Summers Ridge Road.

Zone 2 – Includes all of the remaining parcels within the District boundaries.

Apportionment Methodology

The total cost for maintenance of the improvements will be assessed to the various parcels in the District in proportion to the estimated Equivalent Benefit Units (EBUs) assigned to a parcel in relationship to the total EBUs of all parcels in the District.

EBUs for each parcel have been determined as a function of three factors, a Land Use Factor, a Benefit Factor, and a Location Factor, related as shown in the following equation:

$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$
--

Land Use Factor

Since the improvements to be maintained by the District are primarily associated with the Transportation Element of the General and Community Plans, trip generation rates for various land use categories (as previously established by the City's Transportation Planning Section) have been used as the primary basis for the development of Land use Factors. While these trip

generation rates strictly address only vehicular trips, they are also considered to approximately reflect relative trip generation for other modes of transportation (e.g., pedestrian trips, bicycle trips, etc.), and are considered the best available information for these other transportation modes.

The special benefits of landscape improvements maintained by the District are linked to trip generation primarily by the public safety and aesthetic enhancement enjoyed by travelers through the community. Trip generation rates provide the required nexus and basis for assigning ratios of maximum potential benefit to the various land use/zoning classifications as defined by the City's Municipal Code.

Land use/zoning classifications have been grouped with averaged trip generation rates assigned to establish the Land Use Factors as shown in Table 1.

TABLE 1: Land Use Factors

Land Use/Zoning	Land Use Factor
Commercial	45.0 per acre
Mining	7.5 per acre
Open Space/Non-taxable	0 per acre
Small Commercial	30 per acre
Vacant Misc.	0 per acre

Designated Open Space serves primarily to preserve natural landscape and habitat. While access for study and passive recreation is sometimes permitted, these activities are usually allowed only to the limited extent consistent with the primary purpose of natural preservation. Since this land is essentially “unused” in the customary terms of land use (which relate to human use, not use by nature), the trip generation rate is zero. Therefore, the designated Open Space receives no benefit from the Transportation Element and has been assigned a Land Use Factor of zero.

Benefit Factor

The Land Use Factor described above reflects the relative intensity of use (or potential use) of the various parcels of land to be assessed. It does not address the relationship of this use to the specific improvements to be maintained by the District. This relationship is reflected in the Benefit Factor utilized in the assessment methodology.

In determining the Benefit Factor for each land use category, the subcomponents of the benefits of District improvements considered may include some or all of the following: public safety, view corridors and aesthetics, enhancement of community identity, drainage corridors, and recreation potential. As Benefit Factors and their subcomponents are intended to reflect the particular relationships between specific land uses within a district and the specific improvements maintained by the district, Benefit Factors will generally vary from one district to another, based on the specific character and nature of the applicable land uses and improvements maintained.

The applicable benefit subcomponents and resultant composite Benefit Factors determined for the various Land Use/Zoning categories within this District are shown in Table 2.

TABLE 2: Benefit Factors by Land Use

Land Use/Zoning	Public Safety (Max. 0.3)	Aesthetic (Max. 0.7)	Composite Benefit Factor (Max. 1.0)
Commercial	0.3	0.3	0.6
Mining	0.3	0	0.3
Open Space/Non-taxable	0.3	0	0.3
Small Commercial	0.3	0.3	0.6
Vacant/Misc.	0.3	0	0.3

Public Safety. All land uses are considered to receive the maximum available benefit from the public safety element of District Improvements. Public safety is essential to all land uses, and even to lands, such as designated Open Space, held in stewardship with only incidental human use.

Aesthetics. The degree of benefit received from the aesthetic qualities of landscaped and hardscaped roadway medians, rights-of-ways, vegetated sloped, and open space maintained by the District varies among land use categories. Generally, by nature of their use, residential lands receives the greatest benefit from the reduced traffic congestion, reduced noise levels, greater separation from traffic and generally more tranquil environment provided by landscaped and hardscaped roadway medians and rights-of-way. Commercial and institutional uses, on the other hand, often thrive on higher densities, greater traffic access, and a higher level of activity within the vicinity of their enterprises. These uses, accordingly, receive a lesser degree of benefit from the general insulation and separation provided by the aesthetic elements of District improvements.

Lands in the Open Space, Vacant, Misc., and Mining categories are considered to receive no significant benefit from the aesthetic elements of District improvements, as enhanced aesthetic quality of other lands in their vicinity does not affect their function, use, or value.

Location Factor

The District is subdivided into two benefit zones. The benefits associated with District improvements vary between these zones. The variation in benefit is reflected by the Location Factor.

Zone 1 is established as the base zone and is assigned a Location Factor of 1.0. Zone 2 parcels receive a lesser degree of benefit in proportion to the parcels in Zone 1. Accordingly, Zone 2 has been assigned a Location Factor of 0.1

Table 3 summarizes the proposed Location Factors for the two benefit zones within the district

TABLE 3: Location Factors by Zone

Land Use/Zoning	Location Factor
Zone 1	1
Zone 2	0.1
